

THE SAMZAR OCTOPUS

For Shops & Businesses

A simple waste system for everyday trade.

Shops and small businesses generate waste daily — packaging, bottles, paper and food scraps. In dense areas like the medina, mixed waste creates clutter, smell and frequent disposal trips. The Octopus reduces waste at the source, organises storage, and means handling waste less often — without slowing down work.

THE RHYTHM, EVERY TENTACLE

● Reduce → ● Separate → ● Store → ● Dispose less often

WHAT IMPROVES IN PRACTICE

Less clutter, fewer trips

- Less clutter and fewer disposal trips.
- Clear routines for staff and better storage in small spaces.
- Visible sustainability that customers increasingly notice and appreciate.

One person — owner or staff — oversees the system to keep it simple, without slowing down work.

START SMALL

- Reusable fabric bags
- Clean recycling separation

Begin with these two tentacles. Add more when it's easy.

The Business version

1

Black Gold — Food Waste

Vegetable scraps, tea, coffee (if applicable).

- Separate and seal
- Compost or share

RESULT CLEANER WORKSPACES

2

Reuse · Repair · Repurpose · Donate

Materials kept in use.

- Reusable fabric bags for customers and suppliers
- Refill jars, repurpose materials, donate surplus

RESULT FEWER PLASTICS, LOWER COSTS

3

Recycling (Clean & Dry)

Cardboard, paper, glass, metals.

- Keep clean and dry
- Crush and compact

RESULT UP TO 80% VOLUME REDUCTION

4

Plastics (Reduce Where Possible)

Packaging and bottles.

- Separate PET bottles
- Encourage reusable bags

RESULT LESS PLASTIC WASTE

5

Wet Items That Don't Compost

Cooked food, animal products.

- Store separately
- Dispose carefully

RESULT FEWER PESTS

6

Items That Need Extra Care

Batteries, electronics, aerosols, oils, chemicals.

- Store correctly
- Dispose through the right channels

RESULT SAFER WORKSPACE

7

Water Awareness

Daily water use.

- Reduce use, organic cleaning
- Reuse water for plants

RESULT LOWER WATER BILLS

8

Energy Awareness

Electricity use.

- LED lighting, switch off unused equipment
- Identify energy 'vampires'

RESULT LOWER ENERGY COSTS
